

Your child's learning journey starts at home!

Turn their daily activities into quality learning experiences to help prepare them for success

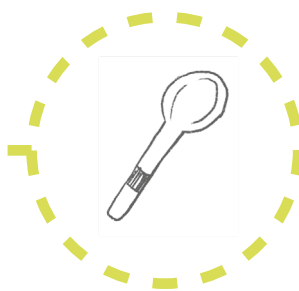

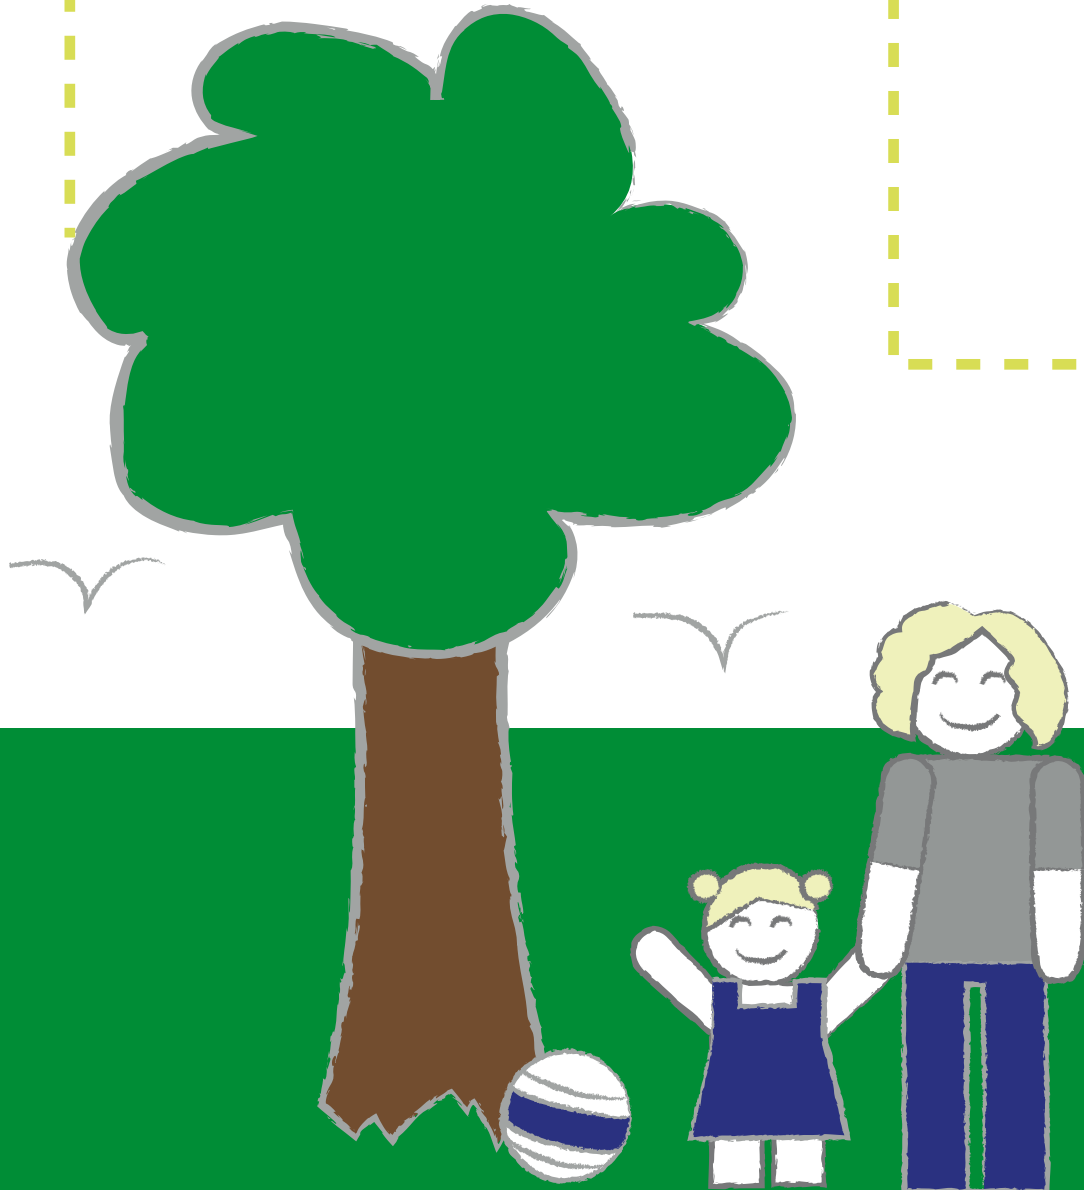

Active play helps children learn to stand, balance, and walk. Get down on the floor, crawl, and play!

Talking to your child helps them learn new words and ways of thinking. Have a special reading time every day!

Children are aware of everything around them! Count steps, trees, birds in the sky and describe the things you see when you take a walk.

Kids love pretend play! Use cooking spoons as telephones and take turns telling stories with a beginning, middle, and end.

Quality early learning experiences support children's long-term learning and development. Quality Start Riverside County supports educators and parents to ensure every child has access to a high quality early learning environment that prepares them to succeed in school and life.
